

RENEW YOUR MEMBERSHIP FOR 2022

Geochemical Society (GS) members can renew quickly and securely on the GS website: www.geochemsoc.org. Renew to enjoy uninterrupted access to *Elements*, *Geochemical News*, and registration discounts to Goldschmidt2022 and to other conferences. Members have access to the online member directory (available by signing into your profile on the website). You can also choose a two-year membership option to save time and money.

A reduced professional rate of \$15 is available to scientists from countries classified by the World Bank as having low-income or lower-middle-income economies. Visit geochemsoc.org/membership/join to learn more about which countries qualify. Students from qualifying countries may apply for free memberships through the Introductory Student Membership Program.

2022 Dues Rates	1-Year	2-Year Membership
Professional: High and Upper-Middle Income Economies	\$40	\$75
Professional: Low and Lower-Middle Income Economies	\$15	\$25
Senior	\$20	\$35
Student	\$15	\$25

OFFICER ELECTIONS

The annual election for the society's board of directors will take place in November 2021, and all GS members are encouraged to participate. You received an e-mail in early November with instructions for voting. Information about the candidates is available on the GS website—please take a few minutes to review them and to vote.

GOLDSCHMIDT 2022 SPECIAL LECTURES

Three named lectures at the Goldschmidt Conference recognize innovative research across several disciplines. Lecture nomination packages are relatively short, requiring only information about the nominee and one support letter. A single nominator can easily assemble a package. The lectures are a great way to share a colleague's exciting work with attendees. The nomination deadline is January 10, 2022. Visit www.geochemsoc.org/honors/special-lectures

GOLDSCHMIDT®
Hawai'i 2022

The **Robert Berner Lecture**, a joint program of the Geochemical Society and the European Association of Geochemistry, is given annually by a mid-career scientist. The lecture is on a 'Berner' subject, which includes a wide range of topics associated with elemental cycling at the Earth's surface (molecular to planetary scale, modern to ancient oceanic and terrestrial systems, evolution of the biosphere, etc).

The **Endowed Biogeochemistry Lecture** recognizes a prominent scientist who is making cutting-edge field-based measurements or laboratory measurements on field samples in the area of biogeochemistry.

The **F. Earl Ingerson Lecture** honors the Geochemical Society's first president. Nominations are accepted for any topic within geochemistry with broad appeal to Goldschmidt attendees.

GS CAPACITY-BUILDING GRANTS

The GS is offering grants to support initiatives aimed at promoting networking, educational activities, analytical training or capacity building related to geochemistry in countries with low and lower-middle-income economies. Grants up to \$2,500 will be awarded.
