EAG SHORT COURSE AND CONFERENCE SPONSORSHIP PROGRAM – APPLY FOR SPONSORSHIP BY 1 NOVEMBER

If you are an EAG member and are organizing a short course or small conference in Europe in 2025, you can apply for EAG sponsorship (up to 3000€) to directly support student attendance at your event. To be eligible, short courses or small conferences should have at least 10 participants and focus on special topics or techniques from the broad field of geochemistry. The short courses or small conferences should be based in Europe, and the event can be organized in conjunction with Goldschmidt2025 in Prague.

To find out more, visit <https://www.eag.org/outreach/event-sponsorship/> and submit your application by 1 November 2024!

2025 EAG AWARDS – UPCOMING NOMINATION DEADLINES

Through a number of awards, the EAG recognizes scientific excellence and outstanding achievements and contributions to geochemistry and the community at various career stages. **Ensuring that the most deserving scientists are recognized and achieving a diverse pool of nominees and thus awardees, requires help from across the whole community** and we encourage everyone to consider submitting a nomination for a colleague, mentor, student, or peer.

Find out more and submit a nomination at <https://www.eag.org/awards/nomination/>.

Nomination deadlines

31 October	GS-EAG Geochemistry Fellowship
15 November	EAG H.C. Urey, Science Innovation, and F.G. Houtermans Awards
6 December	GS-EAG R. Berner Lecture

UPCOMING EAG REACTIONS: REGISTER FOR FREE!

The Strategic Role of Critical Minerals for a Sustainable Industry

6 November 2024 | 16:00–17:15 CEST | Online | Registration: free

Blandine Gourcel

Tânia Martins

The next *EAG Reactions* will take place online on Wednesday 6 November on the subject of Critical Mineral Resources (CMR). **Blandine Gourcel** from the French Geological Survey (BRGM) and **Tânia Martins** from the Manitoba Geological Survey

in Canada will share insights from their work in academia and governmental institutions on CMR. Their presentations will cover research, inventory and exploration of CMR. Following the talks, participants will engage in informal discussions on crucial topics such as securing stable supply chains, the importance of critical minerals in advanced technologies/renewable energy, and the role of geochemistry in critical mineral exploration.

Registration is free and open to all.

Visit <https://www.eag.org/events/reactions/> to find out more and to register now!
