

# Elements

An International Magazine of Mineralogy, Geochemistry, and Petrology

Volume 21, Number 2 • April 2025

## Biomineral Geochemistry: Windows into Past Climates and Calcification

Guest Editors: **David Evans**, **Gavin L. Foster**, and **Rosalind E. M. Rickaby**

85

### Geochemical Proxy Systems in Marine CaCO<sub>3</sub> Biominerals Record Both Environmental Changes and Biomineralisation Processes

David Evans, Rosalind E. M. Rickaby, and Gavin L. Foster

92

### Controls on CaCO<sub>3</sub> Polymorphism: From Laboratory Precipitation to Biomineralization across Geological Time

Jarosław Stolarski, Inge van Dijk, and Liane G. Benning

98

### Boron Proxies: From Calcification Site pH to Cenozoic pCO<sub>2</sub>

Thomas B. Chalk and Claire Rollion-Bard

105

### Calcium Carbonate Biomineralisation: Insights from Trace Elements

Oscar Branson and Lennart J. de Nooijer

112

### Oxygen and Carbon Isotopes in Marine Carbonates: A Biogenic Climate Archive Built Upon Disequilibrium

Sang Chen and James M. Watkins

118

### Amorphous Intermediate Phases: A Major Contribution to the 'Vital Effect'?

Anne Jantschke and Denis Scholz

Synthetic amorphous calcium carbonate nanoparticles—an important intermediate phase in mineralisation. IMAGE CREDIT: CHRISTIAN LIEDEGENS AND ANNE JANTSCHKE (JGU MAINZ).

*Elements* is published jointly by the Mineralogical Society of America, Mineralogical Society of the UK and Ireland, Mineralogical Association of Canada, Geochemical Society, The Clay Minerals Society, European Association of Geochemistry, International Association of Geochemistry, Société Française de Minéralogie et de Cristallographie, Association of Applied Geochemists, Deutsche Mineralogische Gesellschaft, Società Italiana di Mineralogia e Petrologia, International Association of Geoanalysts, Polskie Towarzystwo Mineralogiczne (Mineralogical Society of Poland), Sociedad Española de Mineralogía, Swiss Geological Society, Meteoritical Society, Japan Association of Mineralogical Sciences, and International Association on the Genesis of Ore Deposits. The magazine is provided as a benefit to members of these societies.

*Elements* is published six times a year. Individuals are encouraged to join any one of the participating societies to receive *Elements*. Institutional subscribers to either of the following journals—*American Mineralogist* and *Canadian Journal of Mineralogy and Petrology*—also receive one copy of *Elements* as part of their subscription. Institutional subscriptions are available for US\$190 (US\$205 non-US addresses) per year in 2025. Contact the Executive Editor (editor@elementsmagazine.org) for information.
